March 1959

Dear Member,

LECTURE BY SIR MORTIMER WHEELER, M.C., M.A., D.Lit.

Your Committee is pleased to advise you that they have been fortunate in arranging for a Lecture entitled "HUMAN PROGRESS" to be given by the famous Archeologist, Sir Mortimer Wheeler.

Sir Mortimer is well known to many local people for his work on the excavations at Verulamium and more recently his personality has become familiar to all Viewers of the popular Television Series "Animal, Vegetable or Mineral".

The Illustrated Lecture will be held in the Public Hall, Harpenden at 8.15 p.m., on Monday the 4th May 1959, and it is hoped that every member will be able to attend and will also make the Lecture known to friends.

The Chair will be taken by The Right Hon. The Earl of Verulam, M.A., J.P.

A limited number of tickets will be available for seats in the front rows at 5/- and the remaining tickets will be 3/6d each. Seats will not be numbered. For members' personal use the 5/- tickets will be reduced to 4/- provided they are bought from Mr. C.W. Curl at 8 Vaughan Road, Harpenden before the 24th April.

Tickets will be obtainable at Kingston House and at Mary Ellen's Cafe during the normal business hours.

Yours sincerely,
ERIC BARLOW Honorary Secretary
