

THE HARPENDEN SOCIETY

Autumn Meeting

Our Autumn Meeting this year is on Monday 22nd November 1971 at 8 p.m. in the Small Public Hall. Sir Frederick Bawden is going to speak to us on the History and work of Rothamsted Experimental Station. The lecture will be illustrated. Harpenden is proud to have "Rothamsted" facing us over the Common, but few of us know of the value and importance of the work which is done there. We are grateful to the Director for agreeing to come to our meeting.

Any of your friends will be most welcome.

Future Activities

A year ago many members completed a questionnaire. As a result of this the Society has been able to extend its activities and many more members are taking an active part.

Two new committees have just been formed to consider the more regular publication of a news letter and the feasibility of having more meetings. We hope that they will be able to arrange that the members are kept more up to date with what is going on.

If you can assist the Society in any way, will you make yourself known to Mr. Savage - this year's Committee Chairman - at the meeting or if it is more convenient, you can write to me.

Subscriptions

Mr. Booth, the Treasurer, will be at the meeting and will be glad to receive any outstanding subscriptions.

I expect he will also take your 1972 subscription if you think paying in advance will save you trouble and it will save the Society postage on reminders.

To raise funds the C.P.R.E. are selling a very attractive tea towel at 45p. Some will be available for sale at the meeting.

G.W. BOWMAN

(Secretary)

3 Oakhurst Avenue
